Professional summary

After few years as a pharmacy assistant, I have decided to switch to a new career path . By joining <@Be Code />.

I have gained experience in basic website design issues such as TML, CSS, and Javascript . I have also worked with frameworks and libraries, which include:

Bootstrap , Tailwind , React.js , Next.js , Docker . React-native

I have also completed my internship .

Professional Experience

WEB DEVELOPER

BECODE

Becode is a bootcamp with active pedagogy

Here are few of my project:

- Joinsmile : a startup to deliver medicine from pharmacy to customers. And I was present in this project as a front end developer

- younicoin: Website to see the price of cryptocurrencies (react.js , API , Node.js Express.js)

- Sj84-watchface : A website and platform that allows users to create and customize smartwatches for their website.
